1. INTRODUCTION

The right to privacy is an integral human right recognised and protected in the South African Constitution and in the Protection of Personal Information Act 4 of 2013 (“POPIA”).

POPIA aims to promote the protection of privacy through providing guiding principles that are intended to be applied to the processing of personal information in a context-sensitive manner.

Through the provision of quality goods and services, the organisation is necessarily involved in the collection, use and disclosure of certain aspects of the personal information of clients, customers, employees and other stakeholders.

A person's right to privacy entails having control over his or her personal information and being able to conduct his or her affairs relatively free from unwanted intrusions.

Given the importance of privacy, the organisation is committed to effectively managing personal information in accordance with POPIA's provisions.

2. DEFINITIONS

2.1. Personal Information

Personal information is any information that can be used to reveal a person's identity. Personal information relates to an identifiable, living, natural person, and where applicable, an identifiable, existing juristic person (such as a company), including, but not limited to information concerning:

- race, gender, sex, pregnancy, marital status, national or ethnic origin, colour, sexual orientation, age, physical or mental health, disability, religion, conscience, belief, culture, language and birth of a person;
- information relating to the education or the medical, financial, criminal or employment history of the person;
- any identifying number, symbol, email address, physical address, telephone number, location information, online identifier or other particular assignment to the person;
- the biometric information of the person;
- the personal opinions, views or preferences of the person;
- correspondence sent by the person that is implicitly or explicitly of a private or confidential nature or further correspondence that would reveal the contents of the original correspondence;
- the views or opinions of another individual about the person;
- the name of the person if it appears with other personal information relating to the person or if the disclosure of the name itself would reveal information about the person.

2.2. Data Subject

This refers to the natural or juristic person to whom personal information relates, such as an individual client, customer or a company that supplies the organisation with products or other goods.

2.3. Responsible Party

The responsible party is the entity that needs the personal information for a particular reason and determines the purpose of and means for processing the personal information. In this case, the organisation is the responsible party.

2.4. Operator

An operator means a person who processes personal information for a responsible party in terms of a contract or mandate, without coming under the direct authority of that party. For example, a third-party service provider that has contracted with the organisation to shred documents containing personal information. When dealing with an operator, it is considered good practice for a responsible party to include an indemnity clause.

2.5. Information Officer

The Information Officer is responsible for ensuring the organisation's compliance with POPIA.

Where no Information Officer is appointed, the head of the organisation will be responsible for performing the Information Officer's duties.

Once appointed, the Information Officer must be registered with the South African Information Regulator established under POPIA prior to performing his or her duties. Deputy Information Officers can also be appointed to assist the Information Officer.

2.6. Processing

The act of processing information includes any activity or any set of operations, whether or not by automatic means, concerning personal information and includes:

- the collection, receipt, recording, organisation, collation, storage, updating or modification, retrieval, alteration, consultation or use;
- dissemination by means of transmission, distribution or making available in any other form;
- or merging, linking, as well as any restriction, degradation, erasure or destruction of information.

2.7. Record

Means any recorded information, regardless of form or medium, including:

- Writing on any material;
- Information produced, recorded or stored by means of any tape-recorder, computer equipment, whether hardware or software or both, or other device, and any material subsequently derived from information so produced, recorded or stored;
- Label, marking or other writing that identifies or describes anything of which it forms part, or to which it is attached by any means;
- Book, map, plan, graph or drawing;
- Photograph, film, negative, tape or other device in which one or more visual images are embodied so as to be capable, with or without the aid of some other equipment, of being reproduced.

2.8. Filing System

Means any structured set of personal information, whether centralised, decentralised or dispersed on a functional or geographical basis, which is accessible according to specific criteria.

2.9. Unique Identifier

Means any identifier that is assigned to a data subject and is used by a responsible party for the purposes of the operations of that responsible party and that uniquely identifies that data subject in relation to that responsible party.

2.10. De-Identify

This means to delete any information that identifies a data subject or which can be used by a reasonably foreseeable method to identify, or when linked to other information, that identifies the data subject.

2.11. Re-Identify

In relation to personal information of a data subject, means to resurrect any information that has been de-identified that identifies the data subject, or can be used or manipulated by a reasonably foreseeable method to identify the data subject.

2.12. Consent

Means any voluntary, specific and informed expression of will in terms of which permission is given for the processing of personal information.

2.13. Direct Marketing

Means to approach a data subject, either in person or by mail or electronic communication, for the direct or indirect purpose of:

- Promoting or offering to supply, in the ordinary course of business, any goods or services to the data subject; or
- Requesting the data subject to make a donation of any kind for any reason.

2.14. Biometrics

Means a technique of personal identification that is based on physical, physiological or behavioural characterisation including blood typing, fingerprinting, DNA analysis, retinal scanning and voice recognition.

3. POLICY PURPOSE

This purpose of this policy is to protect the organisation from the compliance risks associated with the protection of personal information which includes:

- Breaches of confidentiality. For instance, the organisation could suffer loss in revenue where it is found that the personal information of data subjects has been shared or disclosed inappropriately.
- Failing to offer choice. For instance, all data subjects should be free to choose how and for what purpose the organisation uses information relating to them.
- Reputational damage. For instance, the organisation could suffer a decline in shareholder value following an adverse event such as a computer hacker deleting the personal information held by the organisation.
- This policy demonstrates the organisation's commitment to protecting the privacy rights of data subjects in the following manner:
 - Through stating desired behaviour and directing compliance with the provisions of POPIA and best practice.
 - By cultivating an organisational culture that recognises privacy as a valuable human right.
 - By developing and implementing internal controls for the purpose of managing the compliance risk associated with the protection of personal information.
 - By creating business practices that will provide reasonable assurance that the rights of data subjects are protected and balanced with the legitimate business needs of the organisation.
 - By assigning specific duties and responsibilities to control owners, including the appointment of an Information Officer and where necessary, Deputy Information Officers in order to protect the interests of the organisation and data subjects.
 - By raising awareness through training and providing guidance to individuals who process personal information so that they can act confidently and consistently.

4. POLICY APPLICATION

This policy and its guiding principles applies to:

- The organisation's governing body
- All branches, business units and divisions of the organisation
- All employees and volunteers
- All contractors, suppliers and other persons acting on behalf of the organisation

The policy's guiding principles find application in all situations and must be read in conjunction with POPIA as well as the organisation's PAIA Policy as required by the Promotion of Access to Information Act (Act No 2 of 2000).

The legal duty to comply with POPIA's provisions is activated in any situation where there is:

- A **processing** of.....
-**personal information**.....
-entered into a **record**.....
-by or for a **responsible person**.....
-who is **domiciled** in South Africa.

POPIA does not apply in situations where the processing of personal information:

- is concluded in the course of purely personal or household activities, or
- where the personal information has been de-identified.

5. RIGHTS OF DATA SUBJECTS

Where appropriate, the organisation will ensure that its clients and customers are made aware of the rights conferred upon them as data subjects.

The organisation will ensure that it gives effect to the following seven rights.

5.1. The Right to Access Personal Information

The organisation recognises that a data subject has the right to establish whether the organisation holds personal information related to him, her or it including the right to request access to that personal information.

An example of a “Personal Information Request Form” can be found under “Annexure A”.

5.2. The Right to have Personal Information Corrected or Deleted

The data subject has the right to request, where necessary, that his, her or its personal information must be corrected or deleted where the organisation is no longer authorised to retain the personal information.

5.3. The Right to Object to the Processing of Personal Information

The data subject has the right, on reasonable grounds, to object to the processing of his, her or its personal information.

In such circumstances, the organisation will give due consideration to the request and the requirements of POPIA. The organisation may cease to use or disclose the data subject’s personal information and may, subject to any statutory and contractual record keeping requirements, also approve the destruction of the personal information.

A data subject who wishes to object to the processing of personal information, must submit the objection to the responsible party on Form 1 of the Regulations to the Act. The responsible party, or a designated person, must must render such reasonable assistance as is necessary, free of charge, to enable the data subject to make an objection on Form 1.

5.4. The Right to Object to Direct Marketing

The data subject has the right to object to the processing of his, her or its personal information for purposes of direct marketing by means of unsolicited electronic communications.

A responsible party who wishes to process personal information of a data subject for the purpose of direct marketing by electronic communication must submit a request for written consent to that data subject on Form 4 of the Regulations to the Act.

5.5. The Right to Complain to the Information Regulator

The data subject has the right to submit a complaint to the Information Regulator regarding an alleged infringement of any of the rights protected under POPIA and to institute civil proceedings regarding the alleged non-compliance with the protection of his, her or its personal information.

An example of a “POPI Complaint Form”, for internal use, can be found under “Annexure B”.

Any person who wishes to submit a complaint contemplated in section 74(1) of the Act must submit such a complaint to the Regulator on Part I of Form 5. A responsible party or a data subject who

wishes to submit a complaint contemplated in section 74(2) of the Act must submit such a complaint to the Regulator on Part II of Form 5 of the Regulations to the Act.

5.6. The Right to be Informed

The data subject has the right to be notified that his, her or its personal information is being collected by the organisation.

The data subject also has the right to be notified in any situation where the organisation has reasonable grounds to believe that the personal information of the data subject has been accessed or acquired by an unauthorised person.

6. GENERAL GUIDING PRINCIPLES

All employees and persons acting on behalf of the organisation will at all times be subject to, and act in accordance with, the following guiding principles:

6.1. Accountability

Failing to comply with POPIA could potentially damage the organisation's reputation or expose the organisation to a civil claim for damages. The protection of personal information is therefore everybody's responsibility.

The organisation will ensure that the provisions of POPIA and the guiding principles outlined in this policy are complied with through the encouragement of desired behaviour. However, the organisation will take appropriate sanctions, which may include disciplinary action, against those individuals who through their intentional or negligent actions and/or omissions fail to comply with the principles and responsibilities outlined in this policy.

6.2. Processing Limitation

The organisation will ensure that personal information under its control is processed:

- in a fair, lawful and non-excessive manner, and
- only for a specifically defined purpose.

The organisation will inform the data subject of the reasons for collecting his, her or its personal information. Alternatively, where services or transactions are concluded over the telephone or electronic video feed, the organisation will maintain a voice recording of the stated purpose for collecting the personal information.

The organisation will under no circumstances distribute or share personal information between separate legal entities, associated organisations (such as subsidiary companies) or with any individuals that are not directly involved with facilitating the purpose for which the information was originally collected.

Where applicable, the data subject must be informed of the possibility that their personal information will be shared with other aspects of the organisation's business and be provided with the reasons for doing so.

An example of a "POPI Privacy Notice" can be found under "Annexure C".

6.3. Purpose Specification

All of the organisation's business units and operations must be informed by the principle of transparency.

The organisation will process personal information only for specific, explicitly defined and legitimate reasons. The organisation will inform data subjects of these reasons prior to collecting or recording the data subject's personal information.

6.4. Further Processing Limitation

Personal information will not be processed for a secondary purpose unless that processing is compatible with the original purpose.

Therefore, where the organisation seeks to process personal information it holds for a purpose other than the original purpose for which it was originally collected, and where this secondary purpose is not compatible with the original purpose, the organisation will first obtain additional consent from the data subject.

6.5. Information Quality

The organisation will take reasonable steps to ensure that all personal information collected is complete, accurate and not misleading.

The more important it is that the personal information be accurate (for example, the beneficiary details of a life insurance policy are of the utmost importance), the greater the effort the organisation will put into ensuring its accuracy.

Where personal information is collected or received from third parties, the organisation will take reasonable steps to confirm that the information is correct by verifying the accuracy of the information directly with the data subject or by way of independent sources.

6.6. Open Communication

The organisation will take reasonable steps to ensure that data subjects are notified (are at all times aware) that their personal information is being collected including the purpose for which it is being collected and processed.

The organisation will ensure that it establishes and maintains a “contact us” facility, for instance via its website or through an electronic helpdesk, for data subjects who want to:

- Enquire whether the organisation holds related personal information, or
- Request access to related personal information, or
- Request the organisation to update or correct related personal information, or
- Make a complaint concerning the processing of personal information.

6.7. Security Safeguards

The organisation will manage the security of its filing system to ensure that personal information is adequately protected. To this end, security controls will be implemented in order to minimise the risk of loss, unauthorised access, disclosure, interference, modification or destruction.

Security measures also need to be applied in a context-sensitive manner. For example, the more sensitive the personal information, such as medical information or credit card details, the greater the security required.

The organisation will continuously review its security controls which will include regular testing of protocols and measures put in place to combat cyber-attacks on the organisation’s IT network.

The organisation will ensure that all paper and electronic records comprising personal information are securely stored and made accessible only to authorised individuals.

All new employees will be required to sign employment contracts containing contractual terms for the use and storage of employee information. Confidentiality clauses will also be included to reduce the risk of unauthorised disclosures of personal information for which the organisation is responsible.

All existing employees will, after the required consultation process has been followed, be required to sign an addendum to their employment containing the relevant consent and confidentiality clauses.

The organisation's operators and third-party service providers will be required to enter into service level agreements with the organisation where both parties pledge their mutual commitment to POPIA and the lawful processing of any personal information pursuant to the agreement.

An example of "Employee Consent and Confidentiality Clause" for inclusion in the organisation's employment contracts can be found under "Annexure D".

An example of an "SLA Confidentiality Clause" for inclusion in the organisation's service level agreements can be found under "Annexure E".

6.8. Data Subject Participation

A data subject may request the correction or deletion of his, her or its personal information held by the organisation.

The organisation will ensure that it provides a facility for data subjects who want to request the correction or deletion of their personal information.

Where applicable, the organisation will include a link to unsubscribe from any of its electronic newsletters or related marketing activities.

7. INFORMATION OFFICERS

The organisation will appoint an Information Officer and where necessary, a Deputy Information Officer to assist the Information Officer.

The organisation's Information Officer is responsible for ensuring compliance with POPIA.

The head of the organisation will assume the role of the Information Officer. Consideration will be given on an annual basis to the re-appointment or replacement of the Information Officer and the re-appointment or replacement of any Deputy Information Officers.

Employees and other persons acting on behalf of the organisation are required to treat personal information as a confidential business asset and to respect the privacy of data subjects.

Employees and other persons acting on behalf of the organisation may not directly or indirectly, utilise, disclose or make public in any manner to any person or third party, either within the organisation or externally, any personal information, unless such information is already publicly known or the disclosure is necessary in order for the employee or person to perform his or her duties.

Employees and other persons acting on behalf of the organisation must request assistance from their line manager or the Information Officer if they are unsure about any aspect related to the protection of a data subject's personal information.

Employees and other persons acting on behalf of the organisation will only process personal information where:

- The data subject, or a competent person where the data subject is a child, consents to the processing; or
- The processing is necessary to carry out actions for the conclusion or performance of a contract to which the data subject is a party; or
- The processing complies with an obligation imposed by law on the responsible party; or
- The processing protects a legitimate interest of the data subject; or
- The processing is necessary for pursuing the legitimate interests of the organisation or of a third party to whom the information is supplied.

Furthermore, personal information will only be processed where the data subject:

- Clearly understands why and for what purpose his, her or its personal information is being collected; and
- Has granted the organisation with explicit written or verbally recorded consent to process his, her or its personal information.

Employees and other persons acting on behalf of the organisation will consequently, prior to processing any personal information, obtain a specific and informed expression of will from the data subject, in terms of which permission is given for the processing of personal information.

Informed consent is therefore when the data subject clearly understands for what purpose his, her or its personal information is needed and who it will be shared with.

Consent can be obtained in written form which includes any appropriate electronic medium that is accurately and readily reducible to printed form. Alternatively, the organisation will keep a voice recording of the data subject's consent in instances where transactions are concluded telephonically or via electronic video feed.

Consent to process a data subject's personal information will be obtained directly from the data subject, except where:

- the personal information has been made public, or
- where valid consent has been given to a third party, or
- the information is necessary for effective law enforcement.

Employees and other persons acting on behalf of the organisation will under no circumstances:

- Process or have access to personal information where such processing or access is not a requirement to perform their respective work-related tasks or duties.
- Save copies of personal information directly to their own private computers, laptops or other mobile devices like tablets or smart phones. All personal information must be accessed and updated from the organisation's central database or a dedicated server.

Employees and other persons acting on behalf of the organisation are responsible for:

- Keeping all personal information that they come into contact with secure, by taking sensible precautions and following the guidelines outlined within this policy.
- Ensuring that personal information is held in as few places as is necessary. No unnecessary additional records, filing systems and data sets should therefore be created.

The IT Manager will assist employees and where required, other persons acting on behalf of the organisation, with the sending or sharing of personal information to or with authorised external persons.
- Ensuring that all computers, laptops and devices such as tablets, flash drives and smartphones that store personal information are password protected and never left unattended. Passwords must be changed regularly and may not be shared with unauthorised persons.
